Projects I've participate in:

Currently I'm working as an iOS and Android developer at https://trubeapp.com/. We create the UK's premier on-demand training app.

Previously I've worked as a mobile developer at http://myanatol.com We create app for everyday routes planning, navigation etc.
https://itunes.apple.com/us/app/myanatol/id1242260184?mt=8

Also I've worked as a development team leader at A5A7 group. We provide "smart store" service like smart house conception, but for chain stores, clubs etc.

Also I've worked as a mobile development team leader at iBuildApp, Inc. Our service ibuildapp.com was something like CMS for mobile apps.
Examples of apps produced with our service you can see at our marketplace at website http://ibuildapp.com/projects.php or in mobile marketplace app:
